

BioLife Plasma Services

Center Physician

Lacey, WA

BioLife Plasma Services, a progressive medical company and an industry leader in the collection of quality plasma, is currently seeking a Center Physician for consulting services in our Lacey, WA location.

Consulting service responsibilities require medical consultation to plasma center business operations including: donor and plasma product safety along with adherence to Standard Operating Procedures and Regulatory requirements. Center Physician consultant serves as liaison to community and to BioLife Corporate Medical Director.

Center Physician consultant must have current Washington State MD or DO licenses and the flexibility to meet plasma center operations needs with a minimum of 4 hours per week on site consultation. BioLife provides a competitive fee for service.
